Parents of junior students should also help their wards to learn personal health and hygiene and how to take be responsible for their belongings.
2. **Frequent visits and outings requests-** The student/s is fully settled in the boarding environment and is focusing on personality development and learning. Frequent visits and outing requests jeopardise the process and prevents learning. The *Visitor Policy* is shared with you with the meeting times. In case, you want to meet your ward, please drop a mail at least 5 days in advance. Secondly, do not visit on Sundays/Holidays as certain special activities are planned for them.

It is undeniably true that vacations should be utilized to the hilt wherein the learners along with their parents can break the monotony and free their minds vacationing in exotic locales and look after their overall development of body, mind, and soul.

However, it is also deem fit that learner should be kept engaged during the vacations with some task or some sort of 'holiday homework' which helps to maintain the continuity of studies too.

The Summer Vacation Assignment is given to the students with the same motive in mind. Parents are requested to ensure that their wards complete the Summer Vacation Assignment during the vacation.

The Summer Vacation Assignment is shared with the students and is available at the school website along with the school portal; however, it can be assessed from the following links-
